(2) Where a member of the Committee dies, resigns or is removed, or ceases to reside in India, or becomes incapable of acting, the Central Government may, on the recommendation of the authority or body which was entitled to make the first nomination or appointment under section 4, or where such recommendation is not made within a reasonable time, then on its own initiative, appoint a person to fill the vacancy.

(3) No act done by the Committee shall be questioned on the ground merely of the existence of any vacancy in, or any defect in the constitution of, the Committee.

7. President of Committee, Secretary, sub-committees and staff.—(1) The Vice-Chairman, Imperial Council of Agricultural Research, shall be the President of the Committee.

(2) Without prejudice to the generality of the foregoing power, the Committee may utilise the Fund to defray expenditure involved in—

(2) Every such return shall be made in such form and shall be verified in such manner as may be prescribed.

(2) If the owner of any mill fails to furnish in due time the return referred to in sub-section (1) of section 10 or furnishes a return which the Collector has reason to believe is incorrect or defective, the Collector shall assess the amount if any, payable by him in such manner as may be prescribed, and the provisions of sub-section (1) shall thereupon apply as if such assessment had been made on the basis of a return furnished by the owner.

Provided that, in the case of a return which he has reason to believe is incorrect or defective, the Collector shall not assess the duty at an amount higher than that at which it is assessable on the basis of the return without giving to the owner a reasonable opportunity of proving the correctness and completeness of the return.

(3) A notice under sub-section (1) may be served on the owner of a mill either by post or by delivering it or tendering it to the owner or his agent at the mill.

13. Power to inspect mills and take copies of records and accounts.—(1) The Collector or any officer empowered by general or special order of the Central Government in this behalf shall have free access at all reasonable times during working hours to any mill or to any part of any mill.

(2) The Collector or any such officer may at any time, with or without notice to the owner, examine the working records, sale records and accounts of any mill and take copies of or extracts from all or any of the said records or accounts for the purpose of testing the accuracy of any return or of informing himself as to the particulars regarding which information is required for the purposes of this Act or any rules made thereunder.

(3) Where any officer other than the Collector proposes to examine under sub-section (2) any record or account containing the description or formulae of any trade process, the owner of the mill may give to the said officer, for transmission to the Collector, a written notice of objection and the officer shall thereupon seal up the record or account pending the orders of the Collector.

14. Information acquired to be confidential.—

(1) All such copies and extracts and all information acquired by a Collector or any other officer from an inspection of any mill or warehouse or from any return submitted under this Act shall be treated as confidential.

16. Publication of rules and regulations.—All rules made under section 17 and all regulations made under section 18 shall be published in the official Gazette.

STATEMENT OF OBJECTS AND REASONS.

In view of the importance of rice as an agricultural crop and as the principal food of a very large proportion of the population of the country, it is considered necessary to put rice research, development and technology on a more permanent basis than it stands at present. Accordingly it is proposed to set up an Indian Central Rice Committee on lines similar to those of the Indian Central Cotton Committee, the Indian Lac Cess Committee, etc. The Committee which will have on it representatives of all the important interests concerned will devote exclusive attention to all problems connected with the improvement and development of the cultivation and marketing of paddy, the production and marketing of rice, and rice products and all matters incidental thereto. Since it is desirable that the Committee should have an independent source of income, it is proposed that as in the case of other similar Committees, e.g., the Indian Central Cotton Committee, the Indian Lac Cess Committee, etc., funds should be provided by the levy of a small excise duty not exceeding a rate of annas 8 per ton on all paddy which is hulled in power mills.
